**TECMO KOEI HOLDINGS CO., LTD.** is an entity that was born as a result of a merger between two companies, Tecmo and Koei. Both companies have roots in different fields of entertainment, with Tecmo starting out in business related to amusement facilities and Koei in PC software development. Even though both companies have been around for half a century in the same industry, they have cultivated different cultures and different expertise.

By unifying these differences, Tecmo Koei will vigorously continue its work in the spirit of “Creativity and Contribution” to deliver even newer and higher quality entertainment content that is able to enrich the hearts of users world-wide.

**Chairman**  
**Yasuharu Kakiyama**

**President**  
**Kenji Matsubara**

While the world economy is currently still suffering from the effects of the economic downturn, we are seeing that economic stimulus policies have helped the economy slowly improve as a whole.

In Japan, the employment situation continues to be severe. On the other hand, general corporate health has been in a steady recovery which can be seen by an increase in corporate profits and personal consumption.

In the video game industry, the market managed to maintain the same level of performance as the previous year, supported by the sales of major titles in both Japan and North America.

Under these conditions, our group received praise for products released this term, but some titles were delayed in order to improve their quality to meet our exacting standards and to help maximize their sales potential. Also due to goodwill amortization from the merger between Koei and Tecmo, the financial results of the TECMO KOEI Group reached net sales of 34.5 billion yen, income before taxes of 3 billion yen, and a consolidated net income of 2.6 billion yen.

## *Reorganizing the TECMO KOEI Group to maximize corporate value*

On April 1st of 2010, we changed our group's organizational structure into several business units grouped by their core businesses and supporting functions in order to speed up our decision-making processes and to promote more effective group resource management.

As a result of these efforts, we formed three companies that each focus on their respective core businesses: "Tecmo Koei Games" handles the group's game software and online/mobile business, "Tecmo Koei Wave" administers the expansion of the group's IP business through special events, licensing activities, pachinko and slot machines and arcade facilities, while "Tecmo Koei Net" acts as a distributor of game software and merchandise for the Japanese domestic market.

We believe this organizational change will power the drive to combine the spirit and business structures of both Koei and Tecmo, and help us to cope with not only the rapidly changing current business climate, but to help expand and create new business fields as well.

Additionally, by combining the group's resources and know-how to improve operational efficiency, we aim to establish a highly profitable constitution and maximize the value of the TECMO KOEI Group.

With the spirit of "Creativity and Contribution", the TECMO KOEI Group hopes to meet the high expectations of our customers by developing products that achieve a harmony between creativity and corporate growth and will serve as a foundation upon which our companies will launch themselves toward a successful future.

We at the TECMO KOEI Group appreciate and ask for your continued support in our present and future endeavors.

**1. Summary of significant accounting policies:****(1) Basis of presentation of consolidated financial statements -**

The accompanying consolidated financial statements of TECMO KOEI HOLDINGS CO., LTD. ("the Company") have been prepared in accordance with the provisions set forth in the Japanese Financial Instruments and Exchange Law and its related accounting regulations, and in conformity with accounting principles generally accepted in Japan ("Japanese GAAP"), which are different in certain respects as to application and disclosure requirements of International Financial Reporting Standards.

The accounts of consolidated overseas subsidiaries for the year ended March 31, 2010 are prepared in accordance with either International Financial Reporting Standards or U.S. generally accepted accounting principles, with adjustments for the specified six items as applicable. The accompanying consolidated financial statements have been restructured and translated into English from the consolidated financial statements of the Company prepared in accordance with Japanese GAAP and filed with the appropriate Local Finance Bureau of the Ministry of Finance as required by the Financial Instruments and Exchange Law. Some supplementary information included in the statutory Japanese language consolidated financial statements, but not considered necessary for fair presentation, is not presented in the accompanying consolidated financial statements.

The translations of the Japanese yen amounts into U.S. dollars are included solely for the convenience of readers outside Japan, using the prevailing exchange rate at March 31, 2010, which was ¥93.04 to U.S. \$1. The convenience translations should not be construed as representations that the Japanese yen amounts have been, could have been, or could in the future be, converted into U.S. dollars at this or any other rate of exchange.

**(2) Basis of consolidation and investments in affiliated companies -**

The consolidated financial statements include the accounts of the Company and its subsidiaries, including KOEI CO., LTD., TECMO LTD., KOEI NET Co., LTD., TECMO WAVE CO., LTD., CWS Brains, LTD., KOEI CAPITAL Co., LTD., SUPER BRAIN, LTD., TECMO, INC., TECMO KOEI AMERICA Corporation, TECMO KOEI EUROPE LIMITED, TECMO KOEI KOREA Corporation, TECMO KOEI TAIWAN Co., Ltd., KOEI CANADA Inc., Tianjin KOEI Software Co., Ltd., Beijing KOEI Software Co., Ltd., and KOEI ENTERTAINMENT SINGAPORE Pte. Ltd. TECMO, INC. and ERGOSOFT Corporation ended liquidation in this consolidated fiscal year. Some subsidiaries whose net income would have no material effect on the financial statements have not been consolidated. All significant intercompany transactions and accounts have been eliminated in consolidation.

**(3) Translation of foreign currency -**

All the assets and liabilities of foreign subsidiaries are translated into Japanese yen at the appropriate year-end rate and all income and expense accounts are translated at the average rate of exchange for the year. The translation of net assets is made using historical rates. The resulting translation differences are presented as "Foreign Currency Translation Adjustments" in the accompanying consolidated balance sheet.

Foreign currency receivables and payables are translated at year-end rates and the resulting translation gains and losses are included in income currently.

**(4) Cash equivalents -**

For purpose of the consolidated statement of cash flows, the Company and its consolidated subsidiaries have classified time deposits and other highly liquid investments as cash equivalents if the original maturities of such investments are three months or less.

**(5) Financial Instruments -****(a) Derivatives**

All derivatives are stated at fair value, with changes in fair value being included in the net profit or loss for the period in which they arise.

**(b) Marketable securities and investment securities**

Marketable securities and investment securities held by the Company and its domestic subsidiaries are classified into three categories:

Trading securities, held for the purpose of generating profits on short-term differences in prices, are stated at fair value, with changes in fair value being included in the net profit or loss for the period in which they arise.

Investments in equity securities issued by unconsolidated subsidiaries are stated at cost because the effect of application of the equity method would be immaterial.

Other securities for which market quotations are available are stated at fair value. Net unrealized gains or losses on these securities are reported as a separate component of net assets, net of applicable taxes.

Other securities for which market quotations are not available are stated at cost or at amortized cost, except as stated in the following paragraph:

In cases where the fair value of equity securities issued by unconsolidated subsidiaries, or other securities has declined significantly and such impairment in value is not deemed temporary, those securities are reduced to fair value and the resulting losses are included in the net profit or loss for the period.

---

**(6) Inventories -**

Inventories of the Company and its consolidated subsidiaries are stated at the lower of market or cost determined using the moving-average method for merchandise, finished goods and raw materials and the specific identification method for work-in-process (unless market value of inventories declines significantly and is not expected to recover to cost, in such cases costs are reduced to net realizable values).

**(7) Property and equipment -**

The property and equipment of the Company and its domestic subsidiaries is being depreciated using the declining balance method, except for buildings acquired after the year ended March 31, 1998, which are being depreciated by the straight-line method. The property and equipment held by foreign consolidated subsidiaries is being depreciated by the straight-line method, based on the estimated useful lives of the assets.

The range of useful lives for "Buildings" is principally from 3 to 50 years.

**(8) Intangible assets -**

The cost of software for sale, other than that related to R&D activities, is capitalized and amortized in the proportion of revenue for the period to total estimated ultimate revenue. The costs related to R&D activities are expensed as incurred.

Software costs for internal use are capitalized and amortized over their estimated useful lives on a straight-line basis.

Goodwill is amortized over its estimated useful lives on a straight-line basis. When the amounts are immaterial, the goodwill is amortized as incurred.

**(9) Accrued bonuses –**

Accrued bonuses are stated at the estimated amount of the bonus to be paid to employees based on their services provided during the fiscal year.

**(10) Deferred assets -**

Stock issuance cost is expensed as incurred.

**(11) Allowance for bad debts -**

An allowance for bad debts is established at an amount considered to be appropriate based primarily on the past credit loss experience of the Company and its consolidated subsidiaries, plus an additional amount deemed necessary to cover possible losses estimated on an individual account basis.

**(12) Allowance for sales returns -**

An allowance for sales returns is provided for losses due to the return of products at an amount calculated based on historical experience.

**(13) Allowance for customer-discount points -**

An allowance for customer-discount points is provided for the accumulation of points granted to online shopping users. The amount of allowance is determined based on the past usage of points.

**(14) Finance leases -**

For financing and leasing transactions other than which transfer ownership to the lessee the straight-line method is adopted with a residual value of zero, with the lease period deemed equal to the service life of the asset. For such transactions originating before the first year of application of Accounting Standard No.13 (Corporate Accounting Standards for Lease Transactions), accounting methods suitable to ordinary lease transactions are applied.

**(15) Income taxes -**

Provision is currently made for the income taxes applicable to all revenue and expense items reported in income tax returns on the basis of when such items are taxable or deductible. The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial statement carrying amounts and the tax bases of assets and liabilities.

### (16) Reserve for retirement benefits -

The reserve for retirement benefits as of March 31, 2010 represents the estimated present value of projected benefit obligations in excess of the fair value of the plan assets except that unrecognized actuarial differences are being amortized on a straight-line basis over a certain period of time from 9 to 14 years from the year following that in which they arise.

Effective from the fiscal year ended March 31, 2010, the Company and consolidated domestic subsidiaries adopted the "Partial Amendments to Accounting Standard for Retirement Benefits (Part 3)" (Accounting Standards Board of Japan ("ASBJ") Statement No.19 issued on July 31, 2008). The new accounting standard requires domestic companies to use the rate of return on long-term government or gilt-edged bonds as of the end of the fiscal year for calculating the projected benefit obligation of a defined-benefit plan. Previously, domestic companies were allowed to use a discount rate determined by taking into consideration fluctuations in the yield of long-term government or gilt-edged bonds over a certain period.

Retirement benefits to directors and statutory auditors are subject to approval at a meeting of shareholders. "Accrued severance indemnities for directors" represents the estimated amount to be paid if all directors and statutory auditors retired at the balance sheet date, based on the retirement rules of the Company.

### (17) Net income per share -

Basic net income per share of common stock ("Basic EPS") is computed based on the weighted average number of shares of common stock outstanding during each year. Diluted net income per share of common stock ("Diluted EPS") further assumes the dilutive effect of warrants.

The basic information for net income per share computations for the year ended March 31, 2010 is as follows:

Cash dividends per share represent the actual amount declared as applicable to the respective years.

	Millions of yen	Thousands of U.S. dollarse	Thousands of shares	Yen	U.S. dollars

## 2. Change in Accounting Policies:

### (1) Accounting Standard for Construction Contracts

The Company and consolidated domestic subsidiaries (the "domestic companies") adopted the "Accounting Standard for Construction Contracts" (Accounting Standards Board of Japan ("ASBJ") Statement No.15, issued on December 27, 2007) and the "Guidance on Accounting Standard for Construction Contracts" (ASBJ Guidance No.18, issued on December 27, 2007). Accordingly, when the outcome of individual contracts can be estimated reliably, the domestic companies apply the percentage-of-completion method to work commencing during the year ended March 31, 2010, otherwise the completed-contract method is applied.

### (2) Business Combinations

The Company applied Accounting Standard for Business Combinations (ASBJ Statement No.21, revised on December 26, 2008), Accounting Standard for Consolidated Financial Statements (ASBJ Statement No.22, revised on December 26, 2008), Revised Accounting Standard for Equity Method of Accounting for Investments (ASBJ Statement No.16, issued on December 26, 2008), Accounting Standard for Business Divestitures (ASBJ Statement No.7, revised on December 26, 2008), Guidance on Accounting Standard for Business Combinations and Accounting Standard for Business Divestitures (ASBJ Guidance No.10, revised on December 26, 2008), because it is allowed to apply for fiscal years that start on or after April 1, 2009.

### (3) Research and development

The Company applied Partial amendments to Accounting Standard for Research and Development Costs (ASBJ Statement No.23, issued on December 26, 2008), because it is allowed to apply for fiscal years that start on or after April 1, 2009.

## 3. Cash flow information:

Cash and time deposits at March 31, 2010 reconciled to cash and cash equivalents as follows:

	Millions of yen	Thousands of U.S. dollars
	2010	2010
Cash and time deposits	¥6,551	\$70,414
Time deposits with maturity over three months	(704)	(7,572)
Marketable securities	3,298	35,450
Total cash and cash equivalents	¥9,145	\$98,292

## 4. Inventories:

Inventories at March 31, 2010 were as follows:

	Millions of yen	Thousands of U.S. dollars
	2010	2010
Merchandise	¥199	\$2,137
Finished goods	331	3,555
Work in process	516	5,547
Raw materials	141	1,512
	¥1,187	\$12,751

## 5. Financial Instruments:

Effective from the fiscal year ended March 31, 2010, the Company adopted the revised Accounting Standard, "Accounting Standard for Financial Instruments" (ASBJ Statement No. 10 revised on March 10, 2008) and the "Guidance on Disclosures about Fair Value of Financial Instruments" (ASBJ Guidance No.19 revised on March 10, 2008). Information on financial instruments for the fiscal year ended March 31, 2010 required pursuant to the revised accounting standards is as follows.

### A. Qualitative information on financial instruments

#### (a) Policies for using financial instruments

The Company and its consolidated subsidiaries procure funds that are required for the planning of capital investment, and short-term operating funds through bank loans. The surplus funds are invested in the compound financial products that build in the stocks, the debenture, and derivatives aiming to operate it by a high yield.

Derivatives that the company uses are only the compound financial products that build in derivatives.

#### (b) Details of financial instruments used and the exposures to risk and how they arise

Notes and accounts receivable are exposed to the credit risks in relation to customers. Some of them are denominated in foreign currencies, which consequently exposes the Company and its subsidiaries to the risks of exchange rate fluctuations.

Securities and investment securities, which are principally equity securities and debt securities, are exposed to the risk of market price fluctuations.

The investments in the compound financial instruments that build in derivatives have the risk of the bond market price and the exchange rate fluctuations.

These investments are executed with credit worthy financial institutions. Given their creditworthiness, management does not expect any counterparty to fail to meet its obligations.

#### (c) Policies and processes for managing the risk

##### (1) Credit risk management (counterparty risk)

The Company and its consolidated subsidiaries have established internal procedures for receivables under which the related divisions are primarily responsible for periodically monitoring counterparty status. The department manages amounts and settlement dates by counterparty and works to quickly identify and mitigate payment risk that may result from situations including deterioration of the financial condition of counterparties. Consolidated subsidiaries are subject to the same risk management rules.

##### (2) Market risk management (risk of exchange rate and interest rate fluctuations)

Any investments to compound financial instruments that include stocks, bonds, and derivatives as their components are managed with the established policies and within the specified limit on the amounts of investments allowed. In addition, the Company clearly separates its transaction division and management division in their functions with the view to securely managing its assets. The Company's management division confirms transactions, manages its current position, and ensures that all derivative transactions are executed with the established policies so that its internal control functions properly. The Company periodically provides administrative reports on the status of its position, including market value, to the financial director and treasurer.

Regarding marketable securities and investment securities, the Company periodically examines the financial condition of the issuing entities. The company also regularly reviews the status of its holdings of bonds, not including those held to maturity, taking into consideration its relationships with corporate business holders.

(3) Management of liquidity risk associated with funds procurement (payment default risk)

The Company and its consolidated subsidiaries manage liquidity risk by creating and updating a capital deployment plan based on reports from each division.

(d) Fair value of financial instruments

Fair values of financial instruments include the values based on market prices, and the values deemed as market prices obtained by the reasonable estimate when the financial instruments do not have market prices. Since certain assumptions and others are adopted for calculating such values, they may differ when adopting different assumptions and others.

B. Fair values of financial information

Fair values of financial instruments as of March 31, 2010 were summarized as follows:

The financial instruments as the fair values were not available were not included in the below and were summarized in B (b).

(a) Fair values of financial instruments

Assets

Cash and deposits and Notes and accounts receivable

The book values approximate the fair values because of short-term maturities of these instruments.

Marketable and investment securities

The fair value is based on the market prices or the prices obtained from financial institutions.

See the Notes on "7. Marketable securities and investment securities"

(b) Financial instruments, whose fair value were difficult to measure

The financial instruments as the fair values were not available as of March 31, 2010, were summarized as follows:

	March 31, 2010	
	(Millions of yen)	(Thousands of U.S. dollars)
Non-listed equity securities	<b>¥166</b>	<b>\$1,784</b>
Other	<b>281</b>	<b>3,021</b>

It is difficult to measure the fair value of these financial instruments because there is no market price available and it is not efficient to calculate future cash flow. Therefore, these financial instruments were not included in the marketable and investment securities described in (a).

(c) Maturities of financial instruments

The maturities of the financial instruments at March 31, 2010 were as follows:

## 6. Rental Property:

Effective from the fiscal year ended March 31, 2010, the Company and its consolidated subsidiaries adopted the "Accounting Standard for Disclosures about Fair Value of Investment and Rental Property" (ASBJ Statement No.20 issued on November 28, 2008). "Guidance on Accounting Standard for Disclosures about Fair Value of Investment and Rental Property" (ASBJ Guidance No.23 issued on November 28, 2008) for the years ending on or after March 31, 2010. Pursuant to the new requirements, information about fair value of investment and rental property included in the consolidated financial statements at March 31, 2010 is as follows:

	Book value (net of depreciation)			Fair value
	March 31, 2009	Increase	March 31, 2010	March 31, 2010
Millions of yen	¥2,668	¥212	¥2,881	¥2,845
Thousand of U.S dollars	\$28,676	\$2,279	\$30,965	\$30,578

Book values recorded in the consolidated balance sheet present acquisition cost, net of accumulated depreciation and impairment loss.

(a)The reason of the increase was mainly due to the acquisition of the assets.

(b)The fair value was calculated by the Company and its consolidated subsidiaries based on the Real Estate Appraisal Standard.

(c)The Company and its consolidated subsidiaries own office buildings (including land) for leasing at Kanagawa prefecture.

The rental income in net sales were ¥33 million (\$354 thousand) for the year ended March 31, 2010.

## 7. Marketable securities and investment securities:

A comparison of the aggregate cost and fair value of "Other securities for which market quotations is available" at March 31, 2010 was as follows:

	Millions of yen			Fair value

Impairment loss of ¥108 million (\$1,163 thousand) is included in the above for the year ended March 31, 2010.

"Debt securities" contain exchange linked bonds of \$5,000 thousand and ¥300 million (\$3,224 thousand) as a contract amount for the year ended March 31, 2010.

The unrealized gains of ¥60 million (\$645 thousand) on the bonds is stated in the statement of income for the year ended March 31, 2010.

Available-for-sale securities sold for the year ended March 31, 2010 were as follows:

	Millions of yen	Thousands of U.S. dollars
	2010	2010
Sales amount	¥3,078	\$33,080
Gross realized gains	1,194	12,836
Gross realized losses	¥0	\$1

The aggregate carrying value of unlisted securities included in "Other securities for which market quotations are unavailable" was ¥300 million (\$3,224 thousand) at March 31, 2010.

## 8. Research and Development Expenses

Research and development expenses included in cost of sales and selling, general and administrative expenses for the years ended March 31, 2010 was ¥590 million (\$6,350 thousand).

## 9. Retirement Benefit Plan

Under the terms of the Company's retirement plan, substantially all employees are entitled to pension or lump sum payments at the time of retirement. The amounts of retirement benefits are, in general, determined on the basis of length of service, current basic rate of pay and the conditions under which termination occurs. The minimum payment is an amount based on voluntary retirement. In addition to the minimum payment based on voluntary retirement, employees receive additional benefits for retirement at the normal retirement age, death or other defined reasons.

The Company has a non-contributory defined benefit funded pension plan with trust banks and insurance companies, adopted in April, 1990, to cover 100 percent of the amounts payable under the existing retirement plan to employees entitled to the above pension benefits. The benefits are payable, at the option of retiring employees who have twenty years or more of service as annuities or in a lump-sum payment and, to retiring employees with less than twenty years of service, in a lump-sum payment. The consolidated domestic subsidiaries have adopted lump-sum payment plans, and the foreign consolidated subsidiary has adopted a contributory defined benefit pension plan.

The reserve for retirement benefits as of March 31, 2010 is summarized as follows:

	Millions of yen	Thousands of U.S. dollars
	2010	2010
Projected benefit obligations	(¥2,615)	(\$28,101)
Plan assets	1,840	19,773
	(775)	(8,328)
Unrecognized actuarial differences	189	2,031
Reserve for retirement benefits	(¥586)	(\$6,297)

The net pension expenses relating to retirement benefits for the year ended March 31, 2010 was as follows:

	Millions of yen	Thousands of U.S. dollars
	2010	2010
Service cost	¥276	\$2,961
Interest cost	44	471
Expected return on plan assets	(46)	(489)
Amortization of actuarial differences	41	441
Net pension expense	¥315	\$3,384

The assumptions used in calculation of the above information were as follows:

	2010
Discount rate	1.3~2.0%
Expected rate of return on plan assets	0.75~3.5%
Method of attributing the projected benefits to periods of service	Straight- line basis
	9 years to 14 years
Amortization of unrecognized actuarial differences	from the year following that in which they arise

## 10. Income taxes:

The income taxes applicable to the Company and its consolidated subsidiaries in Japan include corporation tax, enterprise tax and inhabitant tax which, in aggregate, resulted in an effective tax rate of approximately 40.6% for the year ended March 31, 2010. The Company's effective tax rates for financial reporting purposes differ from the statutory tax rate due to a number of items, including various tax credits, certain expenses not allowable for income tax purposes, the non-deductibility of the losses of subsidiaries, different tax rates applicable to foreign subsidiaries and dividend income which is not taxable.

The reconciliation of differences between the statutory tax rate and the effective tax rate for the year ended March 31, 2010 was as follows:

	2010
Statutory tax rate	40.6%
Increase (decrease) in taxes resulting from:	
Non-deductible expenses	6.2
Non-taxable dividend income	(1.3)

## 11. Qualified revaluation of land:

Pursuant to the Law Concerning Land Revaluation that became effective on March 31, 2000, the Company comprehensively revalued the land it used for business purposes, and the resultant unrealized loss on revaluation of ¥3,102 million (\$33,339 thousand) at March 31, 2010 was recorded as a separate component of net assets on the balance sheet. The land prices used for the revaluation were based on the prices shown in an official notice published by the Commissioner of the National Tax Agency in accordance with Article 2, Paragraph 4 of the Enforcement Ordinance Concerning Land Revaluation, after reasonable adjustments.

The book value before revaluation and the value assessed at the time of revaluation as at March 31, 2000 were as follows:

	Millions of yen
Book value before revaluation	¥6,349
Carrying amount after revaluation	3,247

As of March 31, 2010, the fair value of the revalued land, estimated using the method described above, had further declined to ¥2,788 million (\$29,968 thousand).

## 12. Net Assets:

Under Japanese laws and regulations, the entire amount paid for new shares is required to be designated as common stock. However, a company may, by a resolution of the Board of Directors, designate an amount not exceeding one-half of the price of the new shares as additional paid-in capital, which is included in capital surplus.

Under the Japanese Corporate Law (the "Law"), in cases where a dividend distribution of surplus is made, the smaller of an amount equal to 10% of the dividend or the excess, if any, of 25% of common stock over the total of additional paid-in-capital and legal earnings reserve must be set aside as additional paid-in-capital or legal earnings reserve. Legal earnings reserve is included in retained earnings in the accompanying consolidated balance sheet.

Under the Law, legal earning reserve and additional paid in capital could be used to eliminate or reduce a deficit or could be capitalized by resolution of the shareholders' meeting.

Additional paid-in capital and legal earnings reserve may not be distributed as dividends. However, all additional paid-in-capital and all legal earnings reserve may be transferred to other capital surplus and retained earnings, respectively, which are potentially available for dividends.

The maximum amount that the Company can distribute as dividends is calculated based on the non-consolidated financial statements of the Company in accordance with the Law.

At the annual shareholders' meeting held on June 23, 2010, the shareholders resolved cash dividends amounting to ¥1,166 million (\$12,542 thousand).

Such appropriations have not been accrued in the consolidated financial statements as of March 31, 2010. Such appropriations will be recognized in the period when they are resolved.

## Independent Auditors' Report

To the Board of Directors of  
TECMO KOEI HOLDINGS CO., LTD.:

We have audited the accompanying consolidated balance sheet of TECMO KOEI HOLDINGS CO., LTD. and consolidated subsidiaries as of March 31, 2010, and the related consolidated statements of income, changes in net assets and cash flows for the year then ended, expressed in Japanese yen. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to independently express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of TECMO KOEI HOLDINGS CO., LTD. and subsidiaries as of March 31, 2010, and the results of their operations and their cash flows for the year then ended, in conformity with accounting principles generally accepted in Japan.

The U.S. dollar amounts in the accompanying consolidated financial statements with respect to the year ended March 31, 2010 are presented solely for convenience. Our audit also included the translation of yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made on the basis described in Note 1 to the consolidated financial statements.
